Association of Great Britain

**TERMS AND CONDITIONS IGR.** This certificate is not a guarantee or warranty of the quality of the gemstone, nor is it a valuation. It sets out the characteristics of the gemstone at the date of examination and is the opinion of a professional grader, based on the techniques available at the time of the examination. The formation of the opinion is not an exact science and the results of any other examination may differ depending on when, how and by whom the gemstone is examined, and any changes in techniques since the date of this certificate. IGR Ltd disclaims any liability for any grading differences that may result from the application of other grading techniques.

The security features in this document include a gold foil security print along with other features not disclosed. These features exceed industry security guidelines.
